

Equine Breeding

Whether you are a Stud or Veterinary Practice considering AI or Embryo Transfer we can offer expert advice for new or existing set-ups. Our broad knowledge of this industry makes us the ideal partner to guide you along the path to successful breeding. As the official UK distributor for Minitub we are able to transfer to the market place innovative products and expertise. we can advise you on the following:-

- Collection Equipment. What type of AV to use?
- Dummy Mare installation and positioning
- Evaluation and Processing. Which type of extenders are available?
- Transportation. Equitainer or disposable?
- Insemination
- Embryo Transfer
- Freezing

We are the recognised supplier to leading studs and vets in the UK, so why not give us a call to talk through your requirements. Or if you need assistance with your Embryo Transfer kit, don't hesitate to contact us. Additionally see our EV CPD page for current AI training course.
