

## Haico Operating Tables

EV are proud to announce that they have now become the HAICO distributors for the UK and Ireland markets. The HAICO range offers 3 levels of table from the "Practice" entry level through to the Telgte II fully tilting table.

The advanced function and design of the high quality Haico surgery tables fulfill all requirements of an up-to-date equine surgeon. Where quality, safety, function and hygiene are keymarks these state-of-the surgery tables are the best choice.

Equine surgeons all over the world have chosen Haico tables for their multiple surgical needs.

On supply the Haico tables are fully commissioned and training is carried out with the operators. You have piece of mind that EV have their own UK based service engineer to supply back-up and service support.
